PROFILE SUMMARY

Software Engineer with two years of experience in a product-based company, currently pursuing a part-time PhD degree in Data Science. Passionate about using high quality data to bring out insights and solutions to complex real-world problems. Skilled in modern web development frameworks and cloud platforms, with a strong foundation in data science and machine learning. Currently on the lookout for new opportunities to apply my skills and contribute to impactful projects in the domain of data science and software development.

CERTIFICATIONS

Foundational C# with Microsoft Developer Certification	September 2023
AWS Academy Graduate - AWS Academy Cloud Foundations	November 2022

SKILLS

- **Languages:** Python, Postgres, MySQL, MS-SQL, R
- **Machine Learning / Deep Learning:** Scikit-learn, TensorFlow, PyTorch, XGBoost, LightGBM, CatBoost, Hugging Face Transformers
- **Data Engineering:** Apache Spark, dbt, Apache Airflow, Trino, Apache Iceberg, Apache Druid, Apache Kafka
- **MLOps:** MLflow, Kubeflow, DVC, Prefect, Docker, Kubernetes, Git, GitHub Actions, CI/CD
- **Cloud & Infra:** Kubernetes (on-prem & cloud), MinIO, OpenStack, HAProxy, Terraform, Ansible, Keycloak
- **Web Frameworks & APIs:** FastAPI, Next.js, SvelteKit, Remix, Vite, Vue 3, Flask, .NET Core Web API
- **Visualization:** Apache Superset, Metabase, Grafana, Plotly, Seaborn, Matplotlib, D3.js, Three.js
- **Search & Retrieval:** Qdrant, Meilisearch
- **Other Skills:** Data Modeling, Feature Engineering, A/B Testing, Experiment Tracking, Agile (Scrum/Kanban), SOLID, Design Patterns, API Development, Real-time Systems

EXPERIENCE

Software Engineer <i>Simplify3x Software Private Limited</i> 2 yrs 5 mos	January 2023 – May 2025
- Developed and maintained two impactful modules of SimplifyQA product for the new UI, namely PDF Reports and Pipeline Executions. - Designed and implemented RESTful APIs and microservices that led to significant improvements in response times and improving overall system scalability. - Developed dynamic, data-driven dashboards using Angular and D3.js, enabling real-time visualization of key performance metrics for business stakeholders.	

EDUCATION

CHRIST (Deemed-to-be-University), Bangalore (Central Campus)	December 2024 – Present
<i>Doctor of Philosophy (PhD) in Data Science</i> GPA: 3.6/4.0 (coursework completed)	
CHRIST (Deemed-to-be-University), Bangalore (Central Campus)	June 2021 – June 2023
<i>Master of Computer Applications (MCA) with Data Analytics</i> CGPA: 8.66	
St. Xavier's College (Autonomous), Kolkata	June 2018 – June 2021
<i>Bachelors of Computer Science (Honours) with Physics and Mathematics</i> CGPA: 7.20	
Auxilium Convent School, Barasat	June 2016 – June 2018
<i>12th Grade, ISC Board</i> Percentage: 71.20	
Auxilium Convent School, Barasat	June 2004 – June 2016
<i>10th Grade, ICSE Board</i> Percentage: 76.40	

PROJECTS

E-Commerce Platform with Microservices <i>NestJS, GraphQL, MongoDB, Redis, Kubernetes</i>	2023
- Engineered a microservices-based e-commerce platform with NestJS, GraphQL APIs, and MongoDB for product and order management. - Used Redis for caching and Kubernetes for orchestration and scaling.	
Progressive Web App for Task Management <i>Vue.js, PWA, Service Workers, GCP</i>	2023
- Created a mobile-first PWA for task management with offline support using Vue.js and Service Workers. - Deployed on Google Cloud Platform with automated CI/CD.	
Serverless Event-Driven System <i>AWS Lambda, DynamoDB, S3, API Gateway</i>	2022
- Designed a serverless backend for event processing and notifications using AWS Lambda, DynamoDB, and S3. - Exposed RESTful endpoints via API Gateway and implemented monitoring with CloudWatch.	
Secure Authentication & Authorization System <i>OAuth2, JWT, Auth0, Express</i>	2022
- Implemented a robust authentication and authorization system using OAuth2, JWT, and Auth0 for a multi-user web application. - Integrated with Express.js middleware for secure API access and session management.
