PROFILE SUMMARY

Software Engineer with two years of experience in a product-based company, currently pursuing a part-time PhD degree in Data Science. Passionate about using high quality data to bring out insights and solutions to complex real-world problems. Skilled in modern web development frameworks and cloud platforms, with a strong foundation in data science and machine learning. Currently on the lookout for new opportunities to contribute to impactful projects in the domain of data science and software development.

SKILLS

- **Languages:** Python, Postgres, MySQL, MS-SQL, R
- **Machine Learning / Deep Learning:** Scikit-learn, TensorFlow, PyTorch, XGBoost, LightGBM, CatBoost, Hugging Face Transformers
- **Data Engineering:** Apache Spark, dbt, Apache Airflow, Trino, Apache Iceberg, Apache Druid, Apache Kafka
- **MLOps:** MLflow, Kubeflow, DVC, Prefect, Docker, Kubernetes, Git, GitHub Actions, CI/CD
- **Cloud & Infra:** Kubernetes (on-prem & cloud), MinIO, OpenStack, HAProxy, Terraform, Ansible, Keycloak
- **Web Frameworks & APIs:** FastAPI, Next.js, SvelteKit, Remix, Vite, Vue 3, Flask, .NET Core Web API
- **Visualization:** Apache Superset, Metabase, Grafana, Plotly, Seaborn, Matplotlib, D3.js, Three.js
- **Search & Retrieval:** Qdrant, Meilisearch
- **Other Skills:** Data Modeling, Feature Engineering, A/B Testing, Experiment Tracking, Agile (Scrum/Kanban), SOLID, Design Patterns, API Development, Real-time Systems

EXPERIENCE

- Software Engineer** | *Simplify3x Software Private Limited* | **2 yrs 5 mos** January 2023 – May 2025
- Developed and maintained two impactful modules of SimplifyQA product for the new UI, namely PDF Reports and Pipeline Executions.
 - Designed and implemented RESTful APIs and microservices that led to significant improvements in response times and improving overall system scalability.
 - Developed dynamic, data-driven dashboards using Angular and D3.js, enabling real-time visualization of key performance metrics for business stakeholders.

PROJECTS

- Mediapipe OpenCV Projects** | [Live Demo](#) | [Source Code](#) | *Mediapipe, OpenCV, Streamlit, WebRTC, Python* 2026
- Developed a realtime object detection and landmarking system using Mediapipe (newer Tasks API), OpenCV and Streamlit.
 - The application supports hand tracking, finger counting and face detection, and can be accessed via a web interface using WebRTC for video streaming.
 - Will be adding more features like pose estimation and object detection in the future.

EDUCATION

- CHRIST (Deemed-to-be-University), Bangalore (Central Campus)** December 2024 – Present
Doctor of Philosophy (PhD) in Data Science | GPA: 3.6/4.0 (coursework completed)
- CHRIST (Deemed-to-be-University), Bangalore (Central Campus)** June 2021 – June 2023
Master of Computer Applications (MCA) with Data Analytics | CGPA: 8.66
- St. Xavier's College (Autonomous), Kolkata** June 2018 – June 2021
Bachelors of Computer Science (Honours) with Physics and Mathematics | CGPA: 7.20
- Auxilium Convent School, Barasat** June 2016 – June 2018
12th Grade, ISC Board | Percentage: 71.20
- Auxilium Convent School, Barasat** June 2004 – June 2016
10th Grade, ICSE Board | Percentage: 76.40

CERTIFICATIONS

- Foundational C# with Microsoft Developer Certification** September 2023
AWS Academy Graduate - AWS Academy Cloud Foundations November 2022
